To whom it may concern,

We again received yet another reason why you cannot accept the proof of insurance. You stated that you had a different address for David. Even your own Orange County District C correct address in Vermont for David. Does your own agencies not communicate???

You will see from the attached Court fees that the fees which caused the suspension were paid before the date of suspension. Thus why on earth would you assess \$145 reinstatement fee? you are government and feel that the little guy has no rights???? I guess I should not be shocked by your run around.

From what I have provided....

1. You have proof fees were paid and the suspension should not have been processed
2. Virginia DMV has the wrong address for David. His permanent address/residency has always been Vermont. His car was registered in the State of Vermont along with correct insurance
3. He had car insurance for the dates in question

So what more are you going to request before you fix YOUR ERRORS?????

To whom it may concern,

Attached is the requested proof of insurance for the 2005 Hyundai for the account of David N. Hostetter. At the time the vehicle of question was purchased, the dealership in Virginia registered it in the state of Virginia. It had been registered and insured in the state of Vermont where David had residency, and attached is proof of insurance for May-Nov of 2016 as requested. I acknowledge receipt of this proof and that the erroneous fee of \$500 has been removed from his account.

Also the fallacious \$145 fee to reinstate a Virginia drivers license of which David has never had, should be removed. A license he has never had was suspended and you want to charge him a fee to reinstate something that was nonexistent so you could receive fees associated with another matter of which were paid years ago. This is been confirmed that all those fees were paid in practice is unjust and hard to believe fair-minded people put it into law. David has always had residency in the State of Vermont and was only a student for a short time in Virginia as such, he is not eligible for a license in your state. The associated suspension flag needs to be removed from his record so his Vermont license can be renewed. He has been ill for several years now and is currently trying to get his life back on track. Without a license he cannot work nor have the ability to pay these abhorrent and ridiculous fees.

If you choose ignore my request regarding above requests, I will contact Angel Cioffi, Director of the Legal Aid Justice Center, and get on board with the others fighting the automatic license suspension for failure to pay court fines. It appears that a ruling against this practice has been issued and a precedence has been set. I will also contact the media to let the future students know that going to school in your state is a mistake on all fronts.

I await your reply.

Regards,

Laurie Hostetter

Without a license he cannot work nor have the ability to pay these abhorrent fees.

If you choose ignore my request regarding above requests, I will contact Angel Cioffi, Director of the Legal Aid Justice Center, and get on board with the others fighting the automatic License suspension for failure to pay court fines. It appears that a ruling against this practice has been issued and a precedence has been set. I will also contact the media to let the future students know that going to school in your state is a mistake on all fronts.

I await your reply.

To whom it may concern,

Attached is the requested proof of insurance for the 2005 Hyundai for the account of David N. Hostetter. At the time the vehicle of question was purchased, the dealership in Virginia mistakenly registered it in the state of Virginia. It had been registered and insured in the state of Vermont where David had residency, and attached is proof of insurance for May-Nov of 2016 as requested. Please acknowledge receipt of this proof and that the erroneous fee of \$500 has been removed from his account.

Also the fallacious \$145 fee to reinstate a Virginia drivers license of which David has never had, should be removed. A license he has never had was suspended and you want to charge him a fee to reinstate something that was nonexistent so you could receive fees associated with another matter of which were paid years ago. This is been confirmed that all those fee were paid in full. This practice is unjust and hard to believe fair-minded people put it into law. David has always had residency in the State of Vermont and was only a student for a short time in Virginia as such, he is not asking for a license in your state. The associated suspension flag needs to be removed from his record so his Vermont license can be renewed. He has been ill for several years now and is currently trying to get his life back on track. Without a license he cannot work nor have the ability to pay these abhorrent fees.

If you choose ignore my request regarding above requests, I will contact Angel Ciolfi, Director of the Legal Aid Justice Center, and get on board with the others fighting the automatic License suspension for failure to pay court fines. Kathleen, I just spoke with you as the media person for the OSIG. I filed a complaint with the OSIG, case 2016-0201. I asked to be treated as a whistleblower because I was bringing this information to your attention in trying to make sure the warnings regarding known potential adverse health effects from use and exposure to NCR paper were prepared and my claims were resolved and to help resolve any other related claims. Had I been treated as a Whistleblower back then as well as all my other claims resolved, we would not be in the position you are in now. I also spoke to Whistleblower lawyers over the weekend without providing the name of the state or other identifying details and was advised this could be a billion dollar case or more against the state and billions for the Contractors, which is Verizon. The OSIG is to resolve Whistleblower claims for the state and the Contractor which is Verizon. I filled out the forms, provided details and had you done this or still do this today, the state would avoid such massive losses. Because I have the hundreds of emails, thousands of pages of documents to confirm all my claims, there is no out for the state to avoid such losses other than this. I have court documents to prove the state has known of the potential for such adverse health effects from use and exposure to NCR paper since June 1993 and can prove the state, city of Virginia Beach has not prepared or warned employees, citizens of such potential adverse health effects.

I look forward to either getting a copy of all the files associated with my claims or resolving my claims as a whistleblower including forcing Verizon, as a state contractor, (checked with DPOR.virginia.gov) to resolve all my claims.

Otherwise I will proceed with the USDOJ Criminal Public Integrity Section filings as well as provide details to the Whistleblower law firm which could cost the state, Verizon, city of Virginia Beach into the billions since I can provide the fraud, conspiracy and Racketeering has been going on for so long.

Kathleen, Kate, I look forward to hearing from you, Michael Westfall by noon to discuss this and hopefully come to a resolution.

IG Westfall, I filed a complaint with your office in June 2016-case number 2016-0201 and you and your office have also been involved in fraud, conspiracy and Racketeering along with all other state officials, Governor, Lt Governor, Attorney General, DHP, all state departments and officials.

The OSIG is supposed to be the department that investigates fraud, conspiracy and Racketeering, tries to save money for the state and instead is helping to cause massive financial losses that could be into the hundreds of millions, billions for the state. I simply wanted the OSIG to cause the state to make sure warnings were prepared regarding potential adverse health effects from use and exposure to NCR paper in case anyone inquires, as well as make sure my claims against the state, Verizon are resolved. For the state this would have been a very reasonable resolution and financial cost. Most of the financial cost would be for Verizon. Now this is going to cost the state such huge losses because I will make sure, with the information I have can cause current and former employees, citizens of the state going back to June 1993 according to court records. The OSIG has purposely not lived up to their reason for being and been involved in fraud, conspiracy and Racketeering.

The USDOJ, Criminal Public Integrity Section will need all the files about my case with the OSIG as well as all the other documents from all state agencies.

Please provide to me by noon on Monday May 13, 2019 the copy of the entire file involved with me, all persons contacted by phone, email etc involved with my case and reasons why you did not fulfill your job in trying to save money for the state, protect employees, citizens.

Should you not provide me with this full report by noon, I will make sure the USDOJ, Criminal Public Integrity Section is aware of this and they contact you as to the reasons why.

I look forward to hearing from you tomorrow morning.

Mr. Brown, Dr. Harp, I finally heard from you guys today. I filed my complaint against Governor Northam on February 27, 2019 yet have never heard anything from you in order to provide additional details for your review. Now I receive today a letter stating that you that " the Board has determined that it will not initiate disciplinary proceedings." Just how did you determine this based on just my initial complaint ?

As you can see from my email copied, I have gone to the USDOJ office of Criminal Public Integrity Section to do a full investigation of the Governors office, Attorney General, Lt Gov, and all state associated departments involved in my complaints. That includes you guys, the Virginia Bar Association and over a dozen more state agencies. I need full copies of all documents related to me sent from all departments with the State of Virginia via email by noon on Monday. This could be accomplished with one phone call.

Since you have closed your investigation with no more information than I sent you, please provide me via email the full copy of the entire report, copies of all your contacts related to and all copies of emails, and other data related to my complaint. I need to provide this along with hundreds of other emails, documents etc to the USDOJ Office of Criminal Public Integrity Section Monday afternoon.

I need the entire files related to me sent via email from the Governors office, Lt Gov, Attorney General, City attorney city of Virginia Beach, Mayor of Virginia Beach,, City Manager of Virginia Beach by noon on Monday so I can forward the entire complaint to the USDOJ Office of Criminal Public Integrity Section.

I have full reason to believe there has been and is a criminal conspiracy, fraud and racketeering between all these parties. I believe the hundreds of emails I have can prove such allegations.

I am preparing my complaint and according to the USDOJ, they want to have all of your files so they can begin their investigation of the city of Virginia Beach and state of Virginia.

You guys will have a lot to answer for since I have asked for warnings regarding potential adverse health effects from use and exposure to NCR paper to be prepared and my claims as well as any others resolved. There is no doubt I have been purposely injured by the State of Virginia, city of Virginia Beach, Verizon, unions, DNC etc and you guys have conspired with and for them to keep the details of potential adverse health effects from use and exposure to NCR secret from all employees of the State of Virginia, City of Virginia Beach, employees of Verizon , all citizens of the city of Virginia Beach, state of Virginia.

Had my claims been resolved by Verizon, state of Virginia, unions to begin with and warnings prepared, we would never be here today. You guys may want to ask Verizon , unions why they put all of you and them in such financial peril.

I look forward to hearing from you by noon on Monday with my full files so I can forward to the USDOJ Criminal Public Integrity Section.

It has become obvious the state of Virginia, city of Virginia Beach and many others have been conspiring to purposely secret the information of potential adverse health effects from use and exposure to NCR paper, resolve related claims and conspire with each other and many other persons including Verizon, unions, DNC etc. I realize I am running in circles and all of you and others are working together to keep this secret.

I have been researching who to help with this and investigate. I have been on the phone and researching since this morning. I talked with the USDOJ, Criminal Division, Office of Public Integrity Section ( PIN) as well as Civil Rights Division. I was instructed to complete the Bar Complaints against Mark Stiles, Justine Fairfax Stephen Cobb etc, forward additional details to DHP regarding Ralph Northam, Verizon etc who are involved then forward all my information via email to the USDOJ on Monday morning. I was given contact names to address email to as Annalou Tirol, Robert Zink, Brian A. Benczkowski, Eric S. Dreiband.

Once I make this filing via email on Monday morning I will forward this to media to make public the State of Virginia and city of Virginia Beach are under investigation by the USDOJ.

I tried to avoid this to no avail.

Gary, the following is information about Bar Complaint against Mark Herring. I am planning to file Bar Complaint against Justin Fairfax and additional information to the Department o Health Professions about Governor Ralph Northam. You can see an overview below.

Justin Fairfax and Mark Herring, are in serious trouble and likely to face massive legal problems including loss of law license and massive financial losses for .themselves, their campaigns, the state of Virginia and many others. I am copying you with a complaint with the Virginia Bar Association against Mark Herring, I will file the same basic complaint against Justin Fairfax this weekend online , a complaint has been filed with the Virginia Board of Physicians you can verify, at [DHP.virginia.gov](http://DHP.virginia.gov) complaint #13216 against Governor Ralph Norham for putting all employees, citizens of Virginia in potential danger from use and exposure to NCR paper

As you can see from the details below, they have and are involved in fraud, conspiracy and racketeering with not only Gov Ralph Northam ( a complaint has been filed against him with the Virginia Physicians Board for the same offenses ) but also most state agencies, cabinet members and dozens of other Virginia officials, the DNC, Virginia Democratic Party, Verizon and many others to purposely allow employees of the state as well as

millions of citizens of Virginia , including untold numbers of children to work with, use and be exposed to NCR paper they knew could cause serious adverse health effects including disabilities, birth defects, heart, liver, kidney, respiratory problems, cancer and death and have conspired to keep this information secret in order to save money for the state of Virginia, Verizon, help gain money for their campaigns, the Democratic party for campaigns and many more issues.

I have hundreds of emails to prove my allegations and this will become public after I file the complaint with the Virginia Bar Association against Justin Fairfax, much like the one filed , copied, against Mark Herring.

Once this is public, there is no way either of them will have a chance to become the next Governor of Virginia or hold any other office. Please keep giving because this just adds to the monies available for the likely thousands that will be involved in litigation for claims of either current or potential adverse health effects from use and exposure to NCR paper.

I have done my best to avoid this. As you can see, I simply wanted to be assured warnings regarding known potential adverse health effects from use and exposure to NCR paper would be prepared in case anyone questioned as well as resolve related claims including mine.

I happen to be the most knowledgeable lay person in the country about this issue and can cause the massive litigation to occur based on my information .I am a former employee of Verizon and member of the Belltelretirees and other groups that represent tens of thousands of current and former employees of Verizon. Once I provide all this information to them as well as associations of current and former employees of the state of Virginia, there will likely be

tens of thousands or more  
to file claims.

I can also provide a Bar  
Complaint with the state of  
California against Kamala  
Harris , William Barr,  
current Attorney General  
because he was General  
Counsel for Verizon and  
also conspired to keep this  
secret. I have a lot more  
details I can provide that no  
one else has you can verify.

I will be glad to discuss  
these issues this morning  
and provide more details.
